

MOUNTS AND DAMPENERS

Many styles of machinery mounts and vibration dampeners are available in the MBA product range. The types of mounts offered by MBA cater for all types of projects from fragile 50 gram loads to well over 1000kg.

Many of the mounts available from MBA are direct equivalents to other well known brands, but MBA offers a number of alternative styles too.

UNILOAD™ Constant Natural Frequency Mounts are the latest addition to this product range. Ask your distributor for a **FREE** 16 page brochure – “Theory and Practice of UNILOAD™ Constant Natural Frequency Mounts”.
